Judicial Clerkships: A Bibliography

Mary Dunnewold, Beth Honetschlager & Brenda Tofte

Judicial Clerkships

A Bibliography

Mary Dunnewold, Beth Honetschlager, and Brenda Tofte*

Introduction

Approximately 3,000 judicial clerkships are filled each year by new law school graduates.¹ Most law schools also offer judicial internship or externship courses, allowing students to earn academic credit for work performed as judicial clerks.² These courses often involve a classroom component in which students read about and discuss judicial decision-making, the judge's and clerk's roles, judicial writing, and other relevant topics. Recognizing the value of working behind the scenes in a judge's chambers, some law students even seek out and obtain volunteer positions as judicial clerks.³

A wide variety of materials about judicial clerkships is available in bar journals, law reviews, and books, and on relevant web sites. This bibliography brings together the more recent of these materials and categorizes them by topic. The resulting compilation should be useful to academic professionals planning judicial-clerkship classes or externship experiences, law students contemplating judicial-clerkship positions and wanting to know more, and recent law school graduates preparing to enter judicial clerkships.⁴

* Mary Dunnewold, Beth Honetschlager, and Brenda Tofte are Legal Research and Writing Instructors at Hamline University School of Law.

1 See Natl. Assn. L. Placement, *Jobs for New Law Graduates—Trends from 1994-2004*, NALP Bulletin (July 2005) (available at <http://www.nalp.org/2005juljobsfornewlawgraduates?s=jobs%20for%20new%20graduates>).

2 Natl. Assn. L. Placement, *Courting Clerkships: The NALP Judicial Clerkship Study* (Natl. Assn. L. Placement 2000) (available at <http://www.nalp.org/courtingclerkships#overview>).

3 Judicial-clerkship survey data on file with authors (data collected fall 2008). These positions are usually referred to as "internships," as opposed to "externships," which are offered by law schools for credit.

4 See *id.* Many judicial clerks report feeling unprepared and overwhelmed in the first several months of a clerkship and express a desire for more guidance on how to do their jobs.

We limited the bibliography to materials published since 1980 for two reasons. First, reliance on judicial clerks has exploded since the 1960s,⁵ and advice to clerks may have changed as clerkship positions have become both more competitive and more available. Second, legal writing has become increasingly professionalized over the past several decades,⁶ and there has been a corresponding increase in the market for articles about writing in specific contexts, like judicial clerkships. The scope of the bibliography is broad, including materials on a wide range of topics relevant to the judicial-clerkship experience. The materials are broken down into ten categories and cover such topics as the judicial-clerkship hiring process, the clerk's role in working with a judge, the judge's role in the legal system, and "how to" materials about specific kinds of judicial writing. The selections are written by judges, academic professionals, and judicial clerks, providing a range of perspectives on each topic.

I. General Resources about Judicial Clerkships

General resources and articles about judicial clerkships provide a comprehensive overview of the clerkship experience and guidance about how to be an effective judicial clerk. Some of these overview sources are directed at clerks working in particular courts, e.g., federal district courts or state-specific courts. Nonetheless, readers who want to understand the clerkship position in general may find even these specific resources useful since different clerkship experiences, particularly those in the same level of court (e.g. trial versus appellate), tend to share important features. Many of these resources explain topics ranging from the clerkship application procedures to appellate jurisdiction.

II. Court Guides and Directories

Directories and guides provide contact and other information about the judiciary. Some of these sources are comprehensive guides to the United States judiciary. These comprehensive sources will be helpful to readers planning a clerkship-employment search and thus needing current information about judges in all geographical areas in which they are considering applying. The more narrowly focused sources provide in-depth information for readers interested in clerking for a particular court or type of court. Some of these sources are kept up to date by annual or semiannual publication.

III. Selection–Employment

The resources in this section address various aspects of judicial-clerkship employment, as well as the processes of applying for clerkships and choosing clerks. Application practices vary widely, from the formal and prescribed process used by most federal judges to informal processes used by many state trial court and tribal court judges. In the federal system there is a great deal of competition both between applicants for the most desirable clerkships and between judges for the most desirable clerks. The federal judicial-clerk application-and-selection processes have proven to be fertile ground for analysis and criticism by judges, former clerks, and academics. Thus it is perhaps not surprising that many of the resources in this section concern federal judicial-clerk selection and employment. This section also lists more broadly focused resources that examine employment statistics and trends in all courts. Other resources here contain practical information that will be valuable to readers applying for clerkships.

More information about clerkship opportunities and application processes in specific courts can be found on the courts' websites. In addition, law school career offices keep track of the hiring processes of the courts in their states and vicinities. Finally, some of the resources in the General Resources about Judicial Clerkships and Court Guides and Directories categories above also include practical information about how, when, and where to apply for judicial clerkships.

IV. Judicial Clerk's Role

Judicial clerks have come to be considered essential members of judges' staffs. Most judges agree that the courts could not continue to function as they do without the aid of judicial clerks.⁷ Whereas the clerk's job is commonly described as, in effect, anything the judge wants it to be,⁸ there is not universal agreement about what role, exactly, clerks should play in the judicial decisionmaking process. Some commentators worry that in recent decades judges have ceded too much authority to their clerks, for

7 See generally Oakley & Thompson, *supra* n. 5.

8 See e.g. David Crump, *How Judges Use Their Law Clerks*, 58 N.Y. St. B. J. 43, 44 (May 1986).

clerks draft increasing numbers of documents issued by courts, sometimes with very little supervision.⁹

The resources listed in this category offer various perspectives on the clerk's role; some are written by judges, some by current or former judicial clerks, and some by outside observers. The more general sources about "the clerk's role" will help student readers understand what might be required of them if they pursue a judicial clerkship position. In contrast, materials specific to the United States Supreme Court, which provide insiders' views on clerking for that elite institution, may be interesting to a broader audience interested less in landing a clerkship job and more in how the Supreme Court operates.

V. Judicial Role

Although the resources in this section do not directly address judicial clerkships, they provide a valuable perspective on judges, the “bosses” of judicial clerks. Because the pressures faced by judges will inevitably affect their clerks, readers considering applying for or entering judicial clerkships will benefit from a better understanding of these pressures. In addition, an understanding of the judicial role should enter into any discussion about the clerk’s role, since the two roles are interrelated.

VI. Writing and Citation

Judges and clerks tend to be strong writers and to have strong opinions about writing in general. Thus, numerous sources address issues of style in judicial writing; but few sources address specific documents, other than opinion drafts, that clerks actually write. In addition to the resources listed

in this category, current judicial clerks looking for sample documents or models can consult document banks or existing case files available within their own court or chambers. Also included in this section are some general legal-writing-style reference books and citation materials that will be helpful to clerks and interns—externs working in the courts.

VII. Opinions

A great deal has been written about judicial opinions and opinion writing, and the resources listed here cover a wide range of information, including "how to" guides, criticism of opinions for such things as excessive length and use of humor, analysis of the writing styles of opinions, and analysis of particular rhetorical considerations such as audience and purpose.

The practical resources address the structure of opinions; writing advice; grammar and usage tips; and the processes of writing, editing, and finalizing opinions. Many of these practical resources were written for judges, but they are equally useful for judicial clerks who will be drafting opinions for judges. The more-academic resources may be particularly useful as readings for academic coursework or for clerks interested in the more-theoretical aspects of judicial opinions and opinion writing. For additional practical advice about drafting opinions, clerks should consult the resources of their courts or chambers, including past opinions written by their judges and the advice of more experienced clerks.

VIII. Jury Instructions

The outcome of a trial can depend upon the instructions the judge gives the jury. Jury instructions state the law that jurors must apply to the facts of a case, and a change in the law can mean a change in the verdict. With so much at stake, it is not surprising that much has been written about jury instructions. The resources listed below not only provide examples of jury instructions that courts can adopt for use in specific cases, but also provide helpful information about making jury instructions more readable and understandable to jurors who have no legal training. Additional resources are available in jurisdiction-specific and topic-specific sources such as state practice guides, state bar publications, and ABA publications. For example, the ABA Section on Litigation publishes books of topic-specific pattern jury instructions.¹⁰ In addition, many jurisdictions provide model jury instructions that can be accessed on court websites.¹¹ Since there is often more than one acceptable set of instructions for a cause of action or claim, new clerks should ask their judges if they have preferred sources for jury instructions.

David Barron, *I Did Not Want to Kill Him but Thought I Had to: In Light of Penry II's Interpretation of Blystone Why the Constitution Requires Jury Instructions on How to Give Effect to Relevant Mitigating Evidence in Capital Cases*, 11 J.L. & Policy 207 (2002).

IX. Academic Clerkship Classes

As noted in the introduction, most law schools offer a judicial externship experience for credit. Sources listed in this section offer advice about how to create an externship program or advice about how to work with interns or externs within a judge’s chambers.

X. Ethics

Judicial clerks hold a unique and privileged position in the judiciary. Clerks are privy not only to litigants' secrets and proprietary information, but also to judges' decisionmaking processes. With such privilege comes great responsibility: clerks must keep information learned "on the job" secret. In addition, clerks often have to modify their outside activities so as not to inadvertently establish the appearance of impropriety or favoritism. Since society views judicial clerks as extensions of their judges, clerks must conduct themselves with dignity and neutrality at all times. The following sources discuss clerks' duties of professionalism and confidentiality. Judicial clerks should always ask their judges if there are specific limits on their activities or if there are certain rules the judges want clerks to follow.
